Welcome

# TECH AMBASSADORS

A fast paced series of webinars targeted at the practical uses of everyday personal technology (apps, web resources and smart devices) by people with cognitive disabilities.

We provide clear examples of how this technology can be used in many settings – home, work, day services and planning services.

Find other webinars and resources  
in our archives at  
<https://www.arcwestchester.org/technology>

**REGISTRATION NOW OPEN!**

**THURSDAY**

## IDo – In the Community

← BACK At the Barbershop

- 

1 While you wait, you can do something to keep yourself busy. For example, you can look at a magazine.
- 

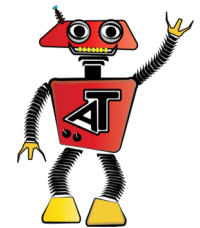

2 The previous customer is finished. Now it's your turn. Sit down by the sink.
- 

3 Tilt your head back and close your eyes while the barber washes your hair.
- 

4 The barber asks you to wait. Wait your turn.
- 

5 The barber places an apron on us so we won't get dirty.
- 

6 It's different, you have to get used to it.
